

Gundaker helped to build a new structure  
at the Community School of Bellevue in Gressier, Haiti.

Gundaker helped to build a new structure at the Community School of Bellevue in Gressier, Haiti. A project of the Rotary Club of Concordville Chadds Ford in partnership with Mommy Sue's Children, the school in Haiti is a school for children who can not afford to pay for any other educational option. Currently there are 220 children in the school, which runs from pre-school through grade 7. The Haitian government mandates that by the year 2018-19 the school goes through grade 9. The Gundaker match allowed the Rotary club of Concordville Chadds Ford to build a structure to accommodate those grades.

The Community School of Bellevue in Haiti was started by a young Haitian man using his own money. The need in the community is so great that it grew beyond his ability to support it.

Rotarian "Mommy Sue" Mardinly, who made frequent trips to Haiti to help after the earthquake, learned that the school was about to close due to the loss of support from disaster response groups no longer coming.

The Rotary Club of Concordville - Chadds Ford stepped in to keep the school running, and Rotarians Sue and Peter Mardinly started Mommy Sue's Children to extend the reach of that support.
