

POLIO AND LASALLE UNIVERSITY – BOTH WINNERS!

It was a well-played and exciting game January 4 when LaSalle University men's basketball team met Xavier. La Salle prevailed, 80 to 70 with both teams playing talented, emotional basketball to the very end.

It was also a winning event for Rotary and District 7450! Rotarians in the district raised funds for polio by attending the game. \$5 from each ticket was given to polio, plus additional funds and, more importantly, consciousness about the status of polio, was raised. Brian Wirtshafter, District

Treasurer and President of Abington at Edge Hill Rotary Club, was a great ambassador for polio as he stood at the concession tables, asking basketball fans if they would give a dollar to immunize a child. Many expressed surprise that polio is still an issue. After the donation of \$1, their pinky nail was painted purple!

District Governor Bonnie was Honorary Coach for the game. At halftime she and Brian walked out on the floor and received two signed game balls. These will be auctioned off at a district event for the benefit of polio. Keep watching!
